HE'S all over town. You'll see him. He shows what great confidence we have in WHITE CAT Union Suits.

Our name on the bill boards is our guarantee that the Klosed-Krotch gives much more comfort, longer wear, than any other underwear for the money.

We don't sell you "something cheap" and when you leave, worry for fear you won't come back unless we cut prices. We sell WHITE CAT quality Union Suits because they bring people back to us. They make friends for us, new customers, and steady buyers, year 'round. Our customers call them "three-year-union suits."

Next time you are down town on business or on suspicion, come in and get acquainted with WHITE CAT Union Suits. You will find the choice of other genuinely good quality merchandise here.

Let WHITE CAT Union Suits side track that troublesome cold and sore throat you often get during cold, damp weather.

Prices no greater because you get more. \$1.00, \$1.50, \$2.00 and up.

NAZARENE ASSEMBLY

ABOUT 300 DELEGATES AND VISITORS—REV. UPCHURCH WILL PREACH THIS EVENING.

The Nazarene Assembly now in session in our city is quite a large and enthusiastic affair. There are in attendance nearly three hundred persons from all over the state of Oklahoma. Among this number are preachers, and laymen, also representatives of various institutions.

Dr. H. F. Reynolds is the presiding general superintendent and presides with ability and dignity. The sessions are all open to the public and the people are availing themselves of the opportunity of hearing some great preaching, singing, shouting and the like.

Last evening Gen. Supt. Reynolds preached one of the greatest sermons ever delivered in Ada on the 17th chapter of John. The speaker was seemingly at his best and the great congregation received his message with much enthusiasm and an exceptionally strong after service followed.

This morning a lively discussion was heard over the question of dividing the state of Oklahoma into two districts as the work seems to be rapidly growing and the Nazarene movement spreading. Rev. J. T. Upchurch formerly of Arlington, Texas, but now of Washington, D. C., will preach tonight. Rev. Upchurch is one of the most prominent rescue workers in the United States and is now arranging to establish from the national capital a world wide plan against white slavery and kindred evils. This man is one of the great men of the times along his line and the people of Ada are sure to hear a great address this evening. On account of the certainty of a great crowd tonight you will need to come early to get a seat. The song service begins at 7 o'clock and the sermon is at 7:30.

The Nazarene church is but a young church but is growing very rapidly. It was organized as such seven years ago at Chicago by the union of several small bodies of holiness people starting off with less than seven thousand members. In the seven years that have gone by since that time the church has grown to about twenty-five thousand with mission work in a number of the foreign lands and some ten or twelve schools and colleges and theological grade.

The Assembly will be in session here until over Sunday beginning each morning at 8:30 and preaching every evening at 7:30.

Visit L. T. Walters' store Friday, also buy some of the cany made by the Christian ladies. 169-11

230 MINERS ENTOMBED AT DAWSON N. M.

Dawson, N. M., Oct. 22.—Two hundred and thirty miners, according to an unofficial estimate, were entombed in shaft No. 2 of the Stag Canon mines here when an explosion occurred in the property at 3 o'clock this afternoon.

Two men found on an upper level were taken from the mine tonight. Rescuers were called from all parts of the Southern Colorado coal fields. The day shift working in shaft No. 2 numbered 230 persons.

The cause of the explosion is unknown. Fire has not broken out, though smoke was seen issuing from the second level of the shaft. It was

believed by rescuers that this smoke came from the explosion and not from fire. Immediately after the explosion all shifts were called to the work of rescue, and those miners who were employed in other shafts were put to work drilling through the debris which was said to have blocked the mine below the second level.

The United States rescue car stationed at Trinidad was summoned and every available man in Dawson tonight was aiding in the attempt to reach the entombed miners.

Rescuers worked heroically to supply air to the men. Reports from the mine did not state at which level the explosion occurred, but simply that the mine shaft was blocked from the second level.

The mine property is owned by the Phelps-Dodge Company of New York. Five mines are connected in the work ing, and it is thought that if any of the miners escaped death in the explosion they should be able to reach safety.

F. L. Miller, superintendent of the Colorado Fuel and Iron Company rescue department, with a crew of trained rescuers, left Trinidad, Colo., in a special car for Dawson with oxygen helmets and other apparatus.

During the recent rains the road to the cemetery became almost impassable and certainly served as a fine example of what a road ought not to be. Friday a funeral procession had considerable difficulty in making the trip and a double tree on one of the cabs was broken, forcing the occupants to return home by other means. If a stretch of road ever needed work that one does. Even if it is only graded up so that the water can drain off it

TO OUR ADVERTISERS.
We kindly ask that our advertisers bring in their changes of copy not later than 12 o'clock. We cannot insure change of ads where they come in later than this hour, because to do so throws the paper late in coming out, which we desire to avoid at all times.

Our Want Ads work day and night.

The Badger Oil Co., the operators who drilled the last well near Ada, have made another big strike near Okmulgee. In view of their success in other fields, it is thought they may return and resume operations here.

About the rankest egotist of the bunch and the one who makes himself the greatest nuisance is the "self-made man" who thinks he did a deuce of a good job and is continually admiring his handiwork—himself.

An Indiana educator thinks the Bible would be more widely read if it contained headlines like the newspapers. Certainly it would. For example, "Big Scandal in High Life—King David Seeks the Wife of Prominent Citizen—Sends Husband to Battle to Be Killed."—Kansas City Journal.

A year ago it was suggested that a sorghum factory be established at Ada, and although nothing was done about it, the suggestion was received with much favor. Now is the time to renew activity in the matter. One of the first steps would be to secure an agreement from a number of farmers to plant enough cane to assure the mill of plenty of raw material.

Very frequently the News receives inquiries from men in other states con-

cerning this section and besides asking for sample copies of the paper they often subscribe, thereby proving that they have their eyes on this part of the country and only want a little more information before casting their lot with us. A steady flow of desirable immigrants may be expected this fall.

With Democrats holding the positions of United States district attorney in both the eastern and western districts of Oklahoma it may be depended upon that there will be mighty few negro votes cast in future elections while this condition exists. It is also a foregone conclusion that there will be no more prosecutions for violations of the federal law when negroes are prevented from voting.—Oklahoma City Times.

From all reports the cotton crop of Pontotoc county is turning out much better than at first seemed possible, and the News has fully recovered its optimism. Bankers report collections fine and the merchants seem to be getting a good line of trade. Take it all the way around it now appears that everything will be in very fair shape—at least much better than was anticipated. With a bumper crop next year Pontotoc county will indeed be on the high road to permanent prosperity.

CIRCUS TRAIN ONE MILE LONG.
Ringling Brothers' Traveling Home Visits 200 Cities Yearly.

A train one mile in length and cut into five sections is required to transport Ringling Brothers' big circus from city to city. One train of twenty cars is needed to haul the parade equipment. Another train is needed for the newly added spectacle, "Joan of Arc." When the show is under canvas it covers fourteen acres of ground. It is a city in itself.

On the payroll of the show are 1,280 names. In the canvas stables are 650 horses. In the menagerie are forty elephants and over a thousand other wild and semi-domestic animals. The daily expenses of the show are \$7,500. In a single season the organization travels 45,000 miles, stopping in about 200 cities and exhibiting before 4,000,000 people. No other show ever enjoyed such popularity. There are 375 performers. Fifty of these are clowns. There are over 200 European artists who until this season never performed in America. The show has its own dynamo plant. It supplies power for thirteen various kinds of shops, and power for 6,000 electric lamps, search lights and beacons. On the show ground is also a postoffice which every day receives mail from all parts of the world.

Another interesting department is the hotel. It is operated by a force of ninety chefs, cooks, waiters, and kitchen helpers. These men cook and serve 4,000 meals every day in the week. Over 1,000 persons can eat at one time. The show also carries its own doctors, lawyers, dentists and detective force. There are a library and a Turkish bath parlor. Among the inhabitants of Ringlingville no less than twenty-nine nations are represented. Interpreters are carried.

The business office of the show is a model of convenience. It has its letter files, adding machines, typewriters, hot and cold running water and electric lights. Three advertising cars travel ahead of the show. The first one is three weeks in advance and the other two follow it, a week apart. Each car has a crew of twenty-five billposters, a superintendent and a car manager. In addition to these there are twenty-two advance contractors, auditors and purchasing agents.

This is the only circus in America that is represented in foreign countries. The Ringling Brothers maintain offices in London, Liverpool, Paris, Berlin, St. Petersburg, Vienna, Cape-town, Hamburg, Calcutta, Hongkong, Constantinople and Buenos Ayres. They also have their own jungle hunters and trappers who work out of the small inland villages of Africa and from the remote cities of South America. It is the wonderful system and the far-reaching facilities of this circus that have had much to do with its success. Through its many agents and representatives it keeps in touch with the entire world. Naturally it is the first to introduce novelties to the American people.

The most important offerings this season is the \$500,000 wordless spectacle, "Joan of Arc," which begins the regular performance in the main tent. It is enacted on a stage bigger than a hundred ordinary theatres and with a cast of 1,200 characters, 600 horses, 300 dancing girls, a grand opera chorus and a trainload of special scenery, costumes and stage properties. The incidental music is played by an orchestra of 100 soloists. There are 50 property men, 50 electricians and 40 stage hands.

Makes Them Feel Safer.
"Any girl," says a lady lecturer, "can marry any man she wants to if she holds his image in her mind." All the same, most girls consider it a big asset to hold his letters in her pocket.

Gala Day at Princeton.
Princeton, N. J., Oct. 22.—Thousands of graduates of Princeton University came back to their alma mater today to join with distinguished public men and educators in the dedication of the new graduate college and the presentation to the university of the Grover Cleveland Memorial Tower. The exercises were combined with the one hundred and sixty-seventh anniversary of the founding of the university.

The exercises were held in the open quadrangle enclosed by the four walls of the graduate college buildings. The program was opened with a dedicatory prayer by Dr. Francis L. Patton, former president of Princeton University. Dr. Andrew Fleming West, dean of the graduate college, delivered the introductory address, taking as his subject "The Household of Knowledge."

Dean West's address was followed by addresses of congratulation in behalf of some of the foremost institutions of learning in Europe and America. Among the speakers were Arthur Shipley, representing the University of Cambridge; Arthur Denis Godley, who spoke in behalf of the University of Oxford; Alois Riehl, professor in the University of Berlin; Emile Boutroux, representing the University of Paris, and Nicholas Murray Butler, president of Columbia University.

The Cleveland Memorial Tower was formally presented by the chairman of the board of trustees and accepted in behalf of the university by President John Grier Hibben. The exercises concluded with an eloquent memorial address on Grover Cleveland delivered by former President William H. Taft.

FRANCIS.
The National Bank of Francis has put in two safes and other fixtures and we have been informed by President Richey that the bank will open its doors for business next Thursday morning.

The school of the city is still moving along in the best of form and the attendance is still increasing.

Senator Gore was through Francis last Tuesday on No. 9. The Senator stayed but a short time, but it would please us very much if he had given us a short piece of his mind.

Mrs. Mary Edwards' little boy has been sick, suffering from typhoid fever and he is reported no better at this writing.

T. J. Cross, editor of the The Wig was in Sasakwa the first of this week looking after the interests of his paper. Everybody looks red and fresh and the M. D.'s inform me that the people are distressingly healthy.

The Hon. John I. McCoolle is still holding down the post office. John is lucky to hold his job among so many hungry Democrats.

We are wanting and needing a first-class hotel man and why cannot some good man come here and put in a place so that a hungry man can be fed. We have no hotel and Francis is the largest town in the state of Oklahoma that is without one.

If Tom McKee announces for the Supreme bench it will be useless for any other candidate to come to Francis Township.

Winter has been here, but the nose of summer is again appearing. We hope winter will make its vacation long enough for the farmers to get their cotton picked.

Deputy Sheriff Bob Duncan was here the first of the week and arrested a young man known here as "Shotgun" and took him to Ada.

**EAT LESS MEAT
IF BACK HURTS**

Take a glass of Salts to flush kidneys if bladder bothers you

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat irritates the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush the kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

WORLD MEETING OF WHITE RIBBONERS

New York, Oct. 23.—White ribbons fluttered in Brooklyn today. Women of every creed and station, wearing the snowy badges of the Woman's Christian Temperance Union attached to emblems from every land and from every state in the Union and every Province of Canada, gathered in the "City of Churches" in readiness for the opening of the ninth triennial convention of the World's W. C. T. U.

The arrival of the foreign delegates started the wheels of the convention activities. A glance at the register maintained at the convention headquarters gave evidence of the fact that the gathering is destined to be the most representative in character in the history of the worldwide organization.

Great Britain and her colonies have sent the largest delegation from across seas. The delegation is headed by Lady Aurea Howard, daughter of the world's president, the Countess of Carlisle. The latter found it impossible to come to the convention on account of ill health and in her absence the sessions will be presided over by her daughter. Other prominent delegates from England are Lady Hope, the leader of the movement for the establishment of coffee houses in England, Miss Agnes Slack, an honorary secretary of the world's body, and Miss Annie Strankie-Cameron, who is world's secretary of the young People's Branch.

Miss Ellen N. Stone, the famous missionary who was captured and held for ransom by brigands in Macedonia, will sit in the convention as the representative of Bulgaria. The Australian delegation is headed by Lady Holder, the president of the organization in that part of the world. Scotland and South Africa have sent good-sized delegations, and far-away China, Japan, India, Argentina and Uruguay will have their representatives; also many other countries.

Historic Plymouth Church, the pulpit of which was occupied for many years by Henry Ward Beecher, was well filled at the preliminary devotional services today, many men being present. The time was given up to brief addresses by many delegates, to one sentence prayers and to singing. Miss Elizabeth Greenwood led the services. This morning the executive committee of the world's union met at the Hotel Brossert and completed final arrangements for the business of the convention. The sessions proper will begin in the Brooklyn Academy of Music tomorrow morning, when the delegates will be welcomed by Mayor Adolphe L. Kline, Borough President Lewis H. Pounds of Brooklyn and William A. Marble, president of the Merchants Association of New York. The sessions will continue until next Tuesday. Sunday will be the big day of the convention. On the morning of that day the pulpits of many of the leading churches in Brooklyn and Manhattan will be occupied by prominent speakers attending the convention. In the afternoon a great mass meeting will be held in the Academy of Music in Brooklyn.

The present year marks the fortieth anniversary of the founding of the Woman's Christian Temperance Union, which had its origin in a great temperance movement which swept the United States in 1873. It was not until some years later, however, that the world organization was formed under the leadership of Miss Frances Willard. The first general convention of the World's W. C. T. U. was held in Boston in 1891 and the second in Chicago during the World's Columbian Exposition. London had the convention next in 1895, then Toronto in 1897, Edinburgh in 1900, and Geneva in 1903. It returned to Boston again in 1906, went to Glasgow in 1910, and Brooklyn was selected for 1913.

The Jenkins Music Co. in Ada.
The people of Ada are to be congratulated in having the Jenkins Music Co. of Kansas City, Mo., come here with such a magnificent line of Pianos as they will exhibit at their store at 110 E. Main street. For years past those who have wanted a really high-grade piano, such as Steinway, Vose or Kurtz man were obliged to go to Kansas City, or to their branch house in Oklahoma City, or to order their piano by mail, but we are now privileged to go in their store and examine their stock of pianos here at home.

The Jenkins Co. are the originators of the One-Price Method of piano selling, and also they do not pay commissions to outsiders for their influence, which means that all the money you invest, goes toward the purchase of piano value. As is the Daily News they are insistent on the "square deal" plan of operating.

There is not a medicine for any purpose more carefully made than S. S. S. It represents the highest type of medicine. Its medicinal properties are just as essential to well balanced health, if the blood be sick, as are the nourishing elements of meats, grains, fats and sugars of our daily food. S. S. S. is prepared direct from native botanical material. Not a drop of drugs is added. Not a drop of minerals is used. This is one of the most important things to know and to remember when your blood needs attention. It is the most effective, the purest, the quickest and most reliable medicine known for poisoned blood, rheumatism, catarrhal infection, malaria, skin disease, old sores and all afflictions that show in the blood, skin, joints and muscles. An interesting book on the blood is mailed to those who write. Get a bottle mailed to you today. It is the world's greatest medicine. Insist upon the dealer handing you S. S. S. and don't let him orate about something that he can't advertise as free from iodide of potash and other destructive mineral drugs. If you have trouble getting S. S. S. write to The Swift Specific Co., 266 Swift Bldg., Atlanta, Ga., for list of square deal stores.

OLD GRUDGE CAUSES KILLING AT SEYMOUR

Seymour, Tex., Oct. 21.—Former Sheriff A. L. Board was shot and instantly killed by T. J. Bruce today. Sheriff W. R. Ellis shot and killed Bruce after Bruce had mortally wounded Ellis in resisting arrest. Bruce is believed to have killed Board because ten years ago Board, who was then sheriff, and one of his deputies killed Bruce's brother, while attempting to arrest him.

Ada Secretary Live Wire.

Ada merchants were fortunate in their selection of a secretary. Mr. E. F. Messenger is building one of the most accurate credit bureaus to be found in the state. He believes in getting the dope before the new-year applies for credit. Messrs. of the bank are so accurate in their time that the merchants of their town for apparent lack of co-operation they would receive an increase in salary instead of having difficulty in collecting present salary. If this plain talk makes you SURE, at the state secretary he probably means YOU.—Oklahoma Retail Merchant.

New Well at Henryetta.

Henryetta, Ok., Oct. 21.—The Artesian Oil company, composed for the most part of Oklahoma City men, has brought in two 100-barrel wells on sections 1 and 12, township 11, range 11, just west of this city.

On section 1 oil was found in the 1-200-foot sand and on section 12 in both the 1,100 and 1,200-foot sands. These are offset wells. The pool is now making nearly 500 barrels daily production. Many new rigs are being erected and there is much activity in all parts of the field.

Again the supreme court has declared Swanson county dead. That county has had as many lives as the proverbial cat, but it is thought that the last killing will settle it for all time.

NOSTRILS AND HEAD STOPPED UP! FROM COLD? TRY MY CATARRH BALM

Instantly. Clears Air Passages; You Breathe Freely; Dull Headache Goes; Nasal Catarrhal Discharge Stops.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. The sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous droppings into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear. (Adv.)

This play, peculiar and powerful, has its origin in romantic England and is a study of fashionable society with a by-play of mysterious crime, that quite outdoes the feats of the famous "Raffles" dress-suit type. A daring and dashing collegian of wealth figures mysteriously in the title role and his depredations include all the grand mansions of the country-side before he finally comes to an accidental end and escapes the penalty of Newgate.

JUDGE TOLBERT INVENTS BEET AND POTATO DIGGER

Sid Tolbert informs the News that he has invented a machine for digging and topping sugar beets, potatoes, peanuts and even onions. He has applied for a patent and in a short time expects to have a full sized machine manufactured and put to an actual test.

In view of the fact that the beet sugar people have a standing offer of \$10,000 for the invention of a machine that will do this work, it is possible that he has struck a bonanza in the simple contrivance he has studied out.

BELIEVED GEORGE WARREN IS UNDER ARREST

A few days ago Chief of Police Cal Bolin received an inquiry from Las Cruces, N. M., concerning George Warren, the negro charged with killing Frank Hatcher near Ada in 1909. He wired back to hold the negro and at once set out to see if the negro under arrest is the one wanted here. No word has been received from him, but it is believed that the negro has for four years manager to elude the officers is the one the New Mexico authorities are holding. Mr. Bolin will likely return in another day or two.
